

2020 BRANDON LEAGUE NEWSLETTER

It seems very odd that I am talking about the coming season before the previous season has finished. Please see page 3 for more info on the end of the season playoffs.

The Brandon Pool League's 21st season is quickly approaching. We will once again, have 4 nights to choose to play on. The leagues will start the week of September 21st.

There will be a Start Up Meeting this year. It is mandatory that all teams have a representative at the meeting.

START UP MEETING
Sunday, Sept 20th - 1 PM
ANAF - Brandon

The sign up deadline is Sunday, September 20th. For more information on the individual

leagues, please see page 2 of this newsletter.

To sign up for the upcoming season you can fax in the sign up form from page 5 of the newsletter, go to the web-site and fill out the sign up form, send me an email (scottaactive@mymts.net) or come to the start up meeting.

It is very important that teams have a representative at the start up meeting. There will be a few league ideas that require your input.

We are always looking for more teams and players for the league. If you have any family or friends that are interested in the pool league, please bring them to the Start Up Meeting.

See you in September!

2019/20 SEASON PLAYOFF DETAILS

I hope that everyone has remained safe and healthy over the past months. Active has booked the ANAF for Brandon Playoffs on October 23rd to 25th.

There will be NO Singles Tournaments.

As stated previously, the 2019/20 Pool League season will now be based on a 22 week season instead of 24 weeks. All league and sanction fees that have been paid are secured and will be paid out once the playoffs take place. Teams are still responsible for payment of all league fees and sanction fees that have not been paid. If you have questions about where you stand with your fees, call or email Lisa at the office:

Email – lisacooper99@hotmail.com

Phone – 204-237-5966

Teams that have paid for the whole season will get reimbursed for the over payment.

With the season ending prematurely, we have decided to do the following for player to be qualified for the playoffs - **Players will get credit for playing in any matches that have not taken place. Example - Team A has 2 matches left to play in the 24 week season. Player A has only played 6 weeks. We will look at it as if he would have played in the 2 cancelled matches and he would qualify to play with 8 weeks. We won't be adding these weeks to the stats. Individual awards will be based on actual matches played.**
